Expect 25 to 50 on Charges Ranging from Murder to Assault and Battery—Attorney Says Hearing Reaches the Stage Where it is Settled Fact That Klan is Responsible

(By The Associated Press)

BASTROP, La., Jan. 22.—From 25 to 50 arrests on charges ranging from murder to assault and battery will result from the state's open hearing into the activities of masked bands in Morehouse parish, according to Attorney General A. V. Coco in charge of the investigation.

"The investigation has reached the stage where it is a settled fact that the Ku Klux Klan is responsible for disorder and lawlessness in the parish bordering on revolution and culminating in the murder of Daniel and Richard," the attorney general said today. He added that it also has been developed at the hearing that a super-government virtually had supplanted the constituted au-

Watt Daniel and T. F. Richard were halted on the Mer Rouge highway two miles from Bastrop on August 24, by a band of masked men and no trace of them was discovered until their mutilated bodies were found in Lake LaFourche on December 22.

The attorney general had been quoted as stating that the Ku Klux Klan in the parish would be indicted as an organization.

Upon his return this afternoon from a conference with Governor Parker at Baton Rouge, he explained that the organization could not be indicted but that true bills against its officers and members could be found.

The hearing lagged today because of a heavy rain and wind storm which made highways in the parish almost impassible and prevented many witnesses from appearing.

Mr. Teegerstrom said another son had received another letter from Harold on January 12, dated "somewhere in the United States." Harold asked his brother to assure his father that he was all right and that when the authorities wanted him to testify he would return home. The youth added in his note that he was being bothered by newspapermen and federal detectives and that he had decided to get away for a little while. Mr. Teegerstrom said he had not heard of any strike has not been followed by the miners many of whom he thought did not report for work in the morning went down in the pits later in the day.

S. E. Bennet, superintendent of the carbon plant identified the bunch of keys found on the banks of LaPoudre as having been seen last about eight months ago by Simmy Harris, a negro employee of the company, who attended the natural gas meters. The keys included one that unlocked the meter houses and Bennet testified that they had been lost near Spivker, more than 25 miles from the lake. The keys bore no evidence of having been exposed to the weather and the attorney general's attaches stressed the fact that they were highly polished and apparently had been carried by someone for a long period before they had been dropped on the bank of the lake.

John I. E. of Mer Rouge held up by the masked party to day Daniel and Richard were kidnapped testified that he observed closely, as a possible means of identification, the shotgun carried by one of the masked men. The stock of the gun had been broken, he said, and it had been mended with a metal of bright appearance, something

The miners' strike to the unjudiced observer appears to be a failure. Originally it was intended that the miners should go on strike for their areas and work. After a few hours of idleness in the pit, the miners became restless and began to work. The

EARTHQUAKE FELT ON PACIFIC COAST

(By The Associated Press)

SAN FRANCISCO Calif., Jan. 22.—An earthquake estimated by observers at the University of Nevada to have centered sixty miles north of Reno, Nevada, was felt throughout the Pacific Northwest.

In many sections of the Pacific Coast region early today no serious damage was reported. A landslide which delayed traffic on a small railroad in Nevada was attributed to the tremors as was a leak which developed in a large gas tank at Wil-

A THOUGHT

Take with you words, and turn to the Lord.—Hos. 4:2.

That the spirit of man should cherish hopes and anticipations beyond what it actually knows and can verify, is quite natural. Human life could not have the scope, the depth and progress it has, were this otherwise.—Matthew Arnold.

Secretary Mellon has announced that applications for the \$300,000,000 worth of 4½ per cent treasury notes totaled \$500,000,000. This is again proof of the fact that there is plenty of money available for investment purposes when the interest rate is certain and satisfactory.

Deaths from automobile carelessness are happening so rapidly in the larger cities of Illinois that very soon the auto record will surpass moonshine in the number of fatalities.

The old Polk Street station in Chicago was recently destroyed by fire. This property loss has hastened a big construction program and now terminal betterments are proposed that will cost

more than \$55,000,000. This great terminal when it becomes a reality will be directly connected with the loop district and help in caring for the congestion there.

Michigan City is another place where the question of doing away with the commission form of government is to be submitted to the people. Americans like changes and it is not a difficult thing to secure a petition which will call an election on this or any other subject which will mean a change.

It is said that Henry Ford's candidacy for the presidency is assuming definite proportions. At any rate, it must be acknowledged that his 7,000 agencies Mr. Ford has a big organization to back with. If the support of every Ford owner can also be made certain the political future of the "world's richest man" is already assured.

In some excavations in Egypt not long since canned meat was found. That is, meat in hermetically sealed vessels was discovered, and certain data on record indicates that the "canning" process must have taken place at least four thousand years ago.

Just another fact to show that some of the things we think of as products of modern times were known to the ancients. Some of the best pavements ever known were built many years before Christ, and while there may not have been farm bureaus in those days, history shows that there was widespread study of soil fertility and crop rotation.

WOMAN'S COLLEGE NOTES

President Harker has returned after several days absence from the city. While away he was at the district meetings of the Springfield and Jacksonville Districts of the Methodist Episcopal Church, held in Carlinville, and from there he went to Champaign where the Champaign and Bloomington Districts were in session. At both of these meetings Bishop Nicholson presided and delivered a series of wonderful sermons in which the outstanding program of the church was analyzed and commended.

The many friends of the college and of the religious activities of the school will be glad to know that the Rev. Dr. Dan V. Brummitt, the editor of the Epworth Herald, has been secured to conduct the services during the Week of Prayer. He will be in Jacksonville on Tuesday, Wednesday and Thursday, February 6, 7 and 8. He will address the students and faculty morning and evening at these services and will hold conferences with individual students, or groups of students as may be arranged.

The classes in Educational Psychology expect to spend some time at the Central Hospital for the Insane in the study of the methods of psycho-analysis, as employed at that institution in the treatment of certain cases.

The Milwaukee Art Institute has written Miss Knopf asking for the privilege of showing her painting, "Pike's Peak" in their annual exhibition of paintings by American artists during February and March. This painting is now on exhibition in the galleries of the Omaha Society of Fine Arts, having been in the close of the exhibition of American paintings at the Chicago Art Institute, where it was first shown in November. Another painting, "Mt. Manitou," has been on view during January at the Chicago Art Institute-Alumni Exhibition in Chicago.

On January 20th an endowment auction was held in the college schoolroom. A list of all possible student occupations were listed such as hair dressing, manicuring, shoe shining, making and selling sandwiches, departmental entertainments, and even darning and household sewing. The assembled students bid on these "jobs" as their own private way of making some endowment "cash." Each girl placed the amount of her bid on her estimate of how much the desired work could bring her. It was a hectic, exciting affair, and now student activities mean much more than basketball or holding offices.

HAPPY M. P. SUNDAY SCHOOL WINS CONTEST

Sunday was the last day of the contest between the Concord M. P. and Chapin M. P. Sunday schools.

The contest was based on the percent of increase above the average of the preceding half year. The Chapin average was 47, and Concord, 67.

The highwater mark of attendance of Chapin was 156 while Concord reached the height of 162.

The contest proved to be a very close race, Chapin winning by less than 2 per cent.

Both schools have taken a great deal of interest and feel assured that much profit will be derived therefrom.

In the near future the two schools will celebrate Chapin's twenty-fifth anniversary and Concord's twenty-fifth anniversary.

COLLEGE FACULTY
ARTISTS IN RECITAL

Mrs. Forrest and Miss Kirby Please in Joint Program With Personal Appeal.

The last of the regular faculty recitals given by members of the College of Music faculty announced for the present season, was given last night in Music hall by Marguerite Palmer-Forrest, soprano, and Florence Kirby, pianist. These joint recitals, which are rather an innovation in the college, have proven successful and attractive to the public and students.

Mrs. Forrest and Miss Kirby chose numbers from wide chronological range as well as of wide variety of tonal usage.

Mrs. Forrest, who was the first to appear, confessed to the audience before her first number that she had chosen to sing songs on this particular program which had a real and a special message for her personally. However, this fact would have remained no secret had she chosen not to make the announcement. Rarely has a singer appeared here who so sang herself across to her audience as did Mrs. Forrest last night.

Her voice, in itself a lovely, liquid organ, never disappointed her hearers, never once surprised the singer; each phrase, well planned, well executed, well rounded, was a delight.

Miss Forrest had as her co-worker Miss Olga Sapio at the piano. Her work in aiding and abetting soloists of all sorts has become well known as one of the delights on any program on which she appears. Fortunately are they who have her sympathetic support.

Miss Kirby as a pianist made a strong impression. Her numbers ranged from polyphonic transcriptions to modern program music, and in each period represented she did herself great credit. Her technique met every need, she has exquisite sense of proportion and tone color, and a trusty right foot that does not "muss up" the strings.

To the program already published Mrs. Forrest added one of Liza Lehman's "Bird Songs." Miss Kirby added "A Music Box" by Liadow, and "A Spanish Dance" by Alberiz.

FORMER GREENE COUNTY OFFICERS TO FACE TRIAL

Jesse R. Edwards, former sheriff of Greene county and now acting sheriff of Holmes county, Minnesota, will be returned to Carrollton to answer to a charge of embezzling \$833.45 of the county's funds while he was sheriff. Edwards left Greene county in 1920 and an indictment was returned shortly afterward by the grand jury.

Edwards has communicated with people in Greene county with a view of settling business affairs, and his letters have led to his apprehension, according to requisition papers, which were issued by Governor Small yesterday to the governor of Minnesota for the surrender of the former sheriff.

State's Attorney M. Knight of Greene county was in Springfield Saturday to secure the necessary papers, which name Deputy Sheriff William Gaffery as messenger to return Edwards.

Five years of suffering from stomach trouble, nervousness and a general run-down condition was ended when he got Tanlac, declares Edw. J. Whalen of Washington, D. C. Mr. Whalen also gained fifteen pounds in weight.

"Tanalac put me on my feet, with a gain of fifteen pounds," declared Edward J. Whalen, 697 6th St., N. W., Washington, D. C., valued employee of the U. S. General Accounting Office.

"For five years, I suffered terribly from stomach trouble and was dreadfully nervous and run-down. I lost my appetite, fell off several pounds, and what I did eat made me suffer from awful gas pains, palpitation and choking sensations. I suffered even worse at night and couldn't get to sleep until near morning.

"But Tanlac has wiped the slate clean" and now I am eating anything I want and am stronger and healthier than in many a day. If anybody wants to know the real value of Tanlac, send them to me."

Tanalac is sold by all good druggists.

DEMPSEY MAY HAVE TWO FIGHTS

NEW YORK, Jan. 22.—On the eve of Jack Dempsey's arrival in the east to discuss what promises to be an active campaign next summer it became virtually established today that Harry Wills, negro challenger, would not meet the title holder in 1923, if at all.

From a position of outstanding contender for Dempsey's crown six months ago, when he signed an agreement of indefinite terms for a contest with the champion, Wills has sunk to virtual obscurity, and Floyd Johnson, Jess Willard and Luis Firpo have stepped into the heavyweight limelight.

Wills' challenge and forfeit, posted with the New York state athletic commission for a bout with Dempsey, still holds good, but William Muldoon chairman of the commission declared today there seemed little likelihood of the contest being arranged.

"The Dempsey-Wills contest is hanging fire," Mr. Muldoon said, "because no promoter wants to undertake it. As far as the principals are concerned I believe both are ready to go thru with a match anytime it can be arranged."

Tex Rickard who declared last summer that he would make no attempt to stage a Dempsey-Wills contest before June 1923, now is understood practically to have cancelled any plans he had made for its promotion. Tom O'Rourke matchmaker for the Polo Grounds put in a bid for the bout last fall, but he is not likely to renew it for the coming outdoor season.

Canada which was considered as a possible site last year has registered official disapproval to a mixed match.

Present indications are that Dempsey will engage in at least two bouts during the outdoor season, one with Willard, probably on June 30 at Boyle's Thirty Acres, and another with either Johnson or Firpo, probably in September. His opponent for a second bout will depend upon the outcome of an elimination series, two of which, between Bill Brennan and Firpo and Tom Gibbons and Johnson are carded for March.

Gibbons may look as a contender despite the fact that his formal challenge last week was rejected by the New York Athletic commission on the ground that the St. Paul boxer was too light for the champion.

ILLINOIS SWAMPED BY WESLEYAN 41-8

Illinois Men Did Everything but Play Basketball—Entire Wesleyan Second Team Played Thru-out Second Half.

Doing everything but play basketball Illinois college went down to defeat before Wesleyan university at Bloomington last night by a score of 41 to 8.

Showing a reversal of form the like of which no Illinois team ever displayed before, the blue and white seemed wholly at sea. In fact their work was such that Adams, who refereed the Carthage game here, said he would never have recognized it as the same team.

Coach Harmon tried every man he had within him in an endeavor to start Illinois to scoring or at least to check the scoring of Wesleyan but all of them were going just the same.

In the first half Wesleyan played her first string men with the exception of Haussler who is out of the game on account of an injury. The score at the halfway period was 22 to 1.

In the second half Wimberly used his entire second team and it did almost as well as the first team in the matter of scoring but its defense was not so tight as Illinois managed to get seven points, making its total eight.

Coach Harmon stated last night that it was the sorriest exhibition he had ever seen an Illinois team put up. He is hoping that the men got all of it out of their systems against Wesleyan and that the score will be different this evening when the blue and white meet Eureka college at Eureka. The score:

HARRY GREB BESTS SHADE

JERSEY CITY, N. J., Jan. 22.—Harry Greb of Pittsburgh, successfully defended his American light-heavyweight boxing championship tonight against Billy Shade of California in a scheduled 12-round bout which went the limit.

Greb won the majority of the rounds, but was booed continually by the crowd after the fifth round because of the lightness of his attack. The bout was fast but neither man produced a stinging punch and both left the ring unblemished.

The champion used his peculiar "windmill style," missing often but even so, he invariably landed several blows to the Californian's one. Shade was aggressive in spot and willing to exchange in puffy rallies, but the hitting power of both contenders drew derision from the spectators.

Thin? Run-down?

Sure way to get right weight

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because to be under weight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S. since 1828 has meant to thousands of underweight men and women, a plus in their strength. Follow checks all out. You stop being

a calamity-looker. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a peaky, bony face doesn't make you look very important or pretty, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

EXECUTIVE BOARD OF COMMERCIAL DIVISION

Held Meeting Monday Morning. Plan Trade Extension Work.

The executive board of the commercial division of the Chamber of Commerce met Monday morning with vice president, Lloyd T. Hamilton presiding. It was brought out at this meeting that other important steps in the trade extension work in Jacksonville will be launched in the near future. Communications from other chambers of commerce were read and many ideas advanced as to what form this trade extension work should take. It was voted that a special committee be appointed to investigate one of these projects which seemed more favorable than the others. This committee is to be named by President C. J. Buhrer and will begin work at once.

At yesterday's meeting J. W. Grist, manager of the Retail Merchant's Institute of Chicago, was quoted from a speech made recently in Dubuque, Iowa, in which he said: "Retailing is changing so rapidly that when merchants scan back over the progress of the last 20 years, it looks as though a revolution had occurred. Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit 15c and 30c.

MAPS SHOW HARD ROAD BUILDING

Shows Hard Road to Danville With the Exception of Short Stretches East of New Berlin and Near Mechanicsburg.

Circulars setting forth the progress in road building in the state of Illinois during the last two years were received in the city yesterday. The maps show a hard road completed from Jacksonville to Danville with the exception of about eight miles east of New Berlin and a short stretch near Mechanicsburg, east of Springfield. This stretch of road will probably mean a 100 per cent increase in tourists through the towns on this route during the coming season.

The map also shows hard roads either completed or contracts let for the construction of a hard road from Jacksonville southwest to Pittsfield. No contract has been let for the stretch between Lynxville and Winchester but it is hoped that by the end of this summer the road will be completed to Pittsfield.

During the two years since January, 1921, 1,137 miles of hard road have been constructed in the state of Illinois.

FIRE ALARMS NOW FOR MINOR FIRES

Hereafter those who wish to know the location and extent of all fires in Jacksonville will be able to read the local papers. The system of sounding the fire whistle for every fire of any sort here the department makes a mistake, has been abandoned. The whistle will be sounded only in the case of a fire of extensive and help needed, or when the blaze is in a business district.

The department was called Monday to the Rhoads residence, 1017 West College avenue, where the fire was abated. Little damage was done before the fire was extinguished.

VIEWS OF WESTERN RAIL EXECUTIVES ON CONSOLIDATION

Were Laid Before the Interstate Commerce Commission

(By The Associated Press)

WASHINGTON, Jan. 22.—Executive of western railroads laid before the interstate commerce commission today their views on tentative plans which the government has devised for consolidation of transportation lines in the territory west of the Mississippi and south of the Missouri river.

W. B. Storry, president of the Atchison, Topeka and Santa Fe Lines took a critical view of the scheme projected for combining his road with other systems and W. H. Finlay, president of the Chicago and Northwestern characterized as reasonable, plans for placing that line in a proper railroad system which would also include the Union Pacific, Chicago St. Paul, Minneapolis and Omaha and possibly the Central Pacific.

In suggesting consolidation possibilities the commission proposed to put the Santa Fe, Colorado and Southern, Denver and Rio Grande Western and several smaller lines into one whole.

"This plan does not give the Santa Fe access to necessary gateways nor does it provide for future expansion that will be necessary," Mr. Storry said. "The Santa Fe should have access to St. Louis, either by a new line or existing lines in order that it may participate in the future in traffic to and from the ports of the southeastern quarter of the United States. This will be an increasingly important matter. The interests both of railroad and of public to be served require the adjustment suggested. Likewise there is a large triangle of territory in central and western Texas not yet reached by the Atchison, Topeka and Santa Fe lines which should be tapped. Inclusion of the Colorado and Southern System likewise will throw the proposed system rather further to the north in its interests than necessary."

Representatives of the Union and Southern Pacific railway systems indicated that evidence supporting the viewpoint take by their managements would be introduced at hearings which the commission will hold on the consolidation matter in western systems. All railroads concerned have filed much data as to amounts of traffic involved in interchanges between them at the present time.

Birthday of Mrs. Sarah Pierce Celebrated in Pleasant Manner Sunday at Home of Son.

Literberry, Jan. 22.—A pleasant family gathering was held Sunday at the home of Mr. and Mrs. Thomas Pierce, one and a quarter miles northeast of Literberry. The affair was in honor of the twenty-eighth birthday of Mr. Pierce's mother, Mrs. Sarah Pierce of Springfield, who is making a visit there.

At noon a splendid dinner was served, the bill of fare including all the good things usually served on such occasion. Afterward came several hours very pleasantly spent socially and when the guests departed it was with the hope that they might help Mrs. Pierce celebrate other such important occasions.

ALEXANDER HOWAT IS STILL FIGHTING INDUSTRIAL COURT

Declares Battle to go on Until It is Removed from the Statutes

(By The Associated Press)

PITTSBURG, Kans., Jan. 22.—Alexander Howat, former president of District 14, United Mine Workers, addressed a meeting of miners this afternoon at Franklin, declaring that the fight against the Kansas industrial court law will continue until it is wiped off the statute books and that the "father" of the industrial court was repudiated in the election held Nov. 7. It was the first appearance of the deposed miners' chief in nearly two years.

Miners in the district were practically at a standstill today, only a few being reported as working with reduced forces. The assemblage of miners and their wives and friends was one of the largest seen in the district, the committee on arrangements finding it necessary to hold an open air meeting in order that all might hear.

Demand that Howat and the five other former miners' officials be reinstated to the positions they held prior to suspension of the district's autonomy on October 12, 1921, was contained in a resolution adopted at the meeting. Other resolutions demanded that the committee which had charge of the miners' election December 12, furnish the local unions with tally sheets showing the vote of each local and the votes thrown out because of irregularities, extended thanks to Judge D. H. Woolley of the district court for freeing the vote last Nov. 7, were able to take care of this so-called "sturdy American." They also repudiated the industrial court, former Governor Henry J. Allen and the stool-pigeon he had running for governor. Our former governor has been buried so deep that he never will be resurrected again."

Howat speaking of A. J. Curran, former district judge who sentenced him to a year in jail with five others for violating a district court injunction prohibiting the calling of strikes declared: "The people of Crawford county by a vast vote last Nov. 7, were able to take care of this so-called 'sturdy American.' They also repudiated the industrial court, former Governor Henry J. Allen and the stool-pigeon he had running for governor. Our former governor has been buried so deep that he never will be resurrected again."

Howat also attacked John L. Lewis, international president of the union, vigorously.

VACANT RESIDENCE DESTROYED BY FIRE

Mysterious Night Blaze Levels Large House on Farm of C. C. Berryman—Estimate Loss at \$2,000.

Fire of mysterious and unknown origin completely destroyed a vacant residence on the farm of C. C. Berryman, 335 West North street, about 1 o'clock Sunday morning. The property was located two miles north of the city on the North Diamond street road, and was known as the old Parker Dean place. Mr. Berryman has owned the farm since 1915.

Persons living in the neighborhood notified Mr. Berryman of his loss early Sunday morning. The fire is supposed to have occurred about 1 o'clock, the no one seems to have any information as to its origin. No one apparently witnessed the destruction of the house.

It is understood that not only the residence, but all outbuildings including a small barn, ice house, etc., were destroyed. The property has been unoccupied since the first of November. Mr. Berryman estimates his loss at about \$2,000. The house was a large one, having about eleven rooms. It was considered one of the best built and most substantial residences in the neighborhood.

THE WATER SUPPLY

The long continued drought, records show it the longest for 40 years, has made great inroads upon the Jacksonville water supply. In order to conserve the supply now on hand as much as possible, connections have been made with the Widenham and Deah wells and a part of the water the city is now using daily is coming from that source.

Mrs. E. A. Admire made a motor trip Sunday to Goodhouse.
